Introduction

Welcome to the proceedings of the system demonstrations session. This volume contains the papers of the system demonstrations presented at the 2018 Conference on Empirical Methods in Natural Language Processing (EMNLP), which was held in Brussels, Belgium on October 31 - November 4, 2018.

The system demonstrations session includes papers describing systems ranging from early research prototypes to mature production-ready software. We received 77 submissions, 4 of which were either invalid or withdrawn by the authors. Of the 73 valid submissions, 29 (40%) were selected for inclusion in the proceedings after review of three members of the program committee. We thank all authors for their submissions, and the 162 members of the program committee for their timely and thoughtful reviews.

Best regards,
Eduardo Blanco and Wei Lu
